

1 ALL-ACCESS CAROUSELS

The legendary open and accessible, flush mounted **All Access Luna Carousel** has been setting the standard for **Invisi-clusive Play** since it was released.

Roll-on, roll-off access that is unimpeded by any change in floor height is complimented by the open and friendly grab bars, shaped to let children fly, play together and interact easily.

3 INCLUSIVE DYNAMIC PLAY

The **Safari Rocker** takes **Invisi-clusive** to the next level in **Dynamic Play**, beckoning children of all abilities to get on board.

The seats are varied to allow for different transition abilities making it easier for carers to assist children to play. Handgrips provide safety, without intruding into the seating space. A truly beautiful **Invisi-clusive Play** addition to any play area for all abilities.

LOOK FOR THE INCLUSIVE ICON

Throughout the **Moduplay Play Book Edition 10** - look for the 'Inclusive' icon. Moduplay Inclusive products help you create spaces that cater to every level of ability.

INVISI-CLUSIVE™ PLAY

When inclusive access to play becomes invisible

Visiting a playground becomes an even more wonderful experience when inclusiveness has been designed into the whole play space.

Invisi-clusive Play is when a play area welcomes children & families of all abilities without them knowing it has been designed to be inclusive.

This includes accessible play equipment, correct under-surfacing,

pathways, picnic facilities and amenities that bring families and children together regardless of their mobility status.

Moduplay now brings you the world first concept of **Invisi-clusive Play**.

Let's work together to bring Invisi-clusive™ Play into your next play space project

The Play Design Team at Moduplay is ready to work with you to integrate inclusiveness into your next play space design until it's invisible.
